Grading The Code	Loading customers & providers into database at the beginning*	**-30**	
	1. Login options & displaying functions depending on user type	**5**	
	2. Add new item for a specific provider	**6**	
	3. Present new offer	**6**	
	4. View all providers.	**5**	
	5. View all customers.	**5**	
	6. View all orders.	**5**	
	7. View all offers.	**5**	
	8. Deliver all paid orders.	**6**	
	9. Cancel offer.	**6**	
	10. Place new order.	**18**	
	11. View my orders.	**5**	
	12. Pay for order.	**11**	
	13. Post a review for a provider	**7**	
	12. Log out (for both customer and administrator)	**5**	
	9. How much UI is friendly?	**5**	
	GUI?	**Yes/No**	
	Overall Grade	**100**	

*This requirement has no weight, but in case of you will not do, 30 points will be taken off of your overall grade. Review the project description to see the records of both customers and providers to be loaded **automatically** into database as is. i.e.: without user intervention.
